

Document ID: DOC-2026-RAG-TEST

Effective Date: January 15, 2026

Target Audience: Engineering, Ops & All Staff

Classification: Internal Confidential

1. Human Resources & Workplace Policies

This section outlines standard operational rules for Acme Global personnel. Compliance is mandatory for all full-time employees and contractors.

1.1 Paid Time Off (PTO) & Leave Rules

- **Annual Allocation:** Full-time employees receive **25 business days** of PTO per calendar year, accrued monthly.
- **Rollover Policy:** A maximum of **5 unused PTO days** can be carried over into the following calendar year. Carried-over days expire automatically on **March 31** if unused.
- **Core Working Hours:** Mandatory presence required between **10:00 AM and 3:00 PM UTC** for collaborative syncs.

1.2 Remote Work & Equipment Stipend

Employees are eligible for a one-time remote setup allowance of **\$500 USD** upon joining, alongside a monthly internet and utilities reimbursement of **\$75 USD**. Reimbursements must be submitted through the portal by the 25th of each month.

2. IT Security & Authentication Protocols

Mandatory Security Notice: All company devices must run full-disk encryption (FileVault / BitLocker). Multi-factor authentication (MFA) must be enforced across all single sign-on (SSO) accounts without exception.

2.1 Password Requirements

- Minimum length: **16 characters**.
- Must contain at least one uppercase letter, one lowercase letter, one numeric character, and one special symbol (e.g., !@#\$%^&*).
- Mandatory password rotation frequency: Every **90 days**.

2.2 Infrastructure Access & Hardware Keys

Direct SSH access to production clusters requires hardware security keys (**YubiKey 5 Series**). Soft tokens or SMS-based MFA are strictly prohibited for root or administrative access tiers.

3. System Architecture & Engineering Specs (Project Falcon)

Project Falcon represents Acme's microservices backend for real-time document indexing and vector retrieval.

Parameter	Standard Tier	Enterprise Tier
API Rate Limit	1,000 requests / min	10,000 requests / min
Latency Benchmark (p95)	< 120 ms	< 45 ms
Max Payload Size	10 MB	50 MB
Database Failover SLA	99.9% availability	99.99% availability

Primary production hosting operates in **AWS us-east-1 (N. Virginia)** with a warm standby automated failover region in **AWS eu-central-1 (Frankfurt)**. Automatic database failover triggers if primary health checks fail for more than **10 consecutive seconds**.

4. Finance & Travel Expense Policy

- **Daily Travel Meal Allowance:** Fixed at **\$85 USD per day** for business travel.
- **Flight Booking Rules:** Economy class is required for all flights with duration under 6 hours. Business class is permitted for long-haul flights exceeding **6 hours continuous flight time** .
- **Receipt Submissions:** Itemized receipts are required for any single expense exceeding **\$25 USD** . Expenses must be submitted within **14 calendar days** post-travel.

5. Incident Management & Severity SLAs

When operational outages or bugs occur, support teams follow strict Response Time SLAs based on incident severity:

Severity Level	Definition	Initial SLA	Update Frequency
Sev-1 Critical	Full system outage affecting production users.	15 minutes	Every 30 minutes
Sev-2 Major	Significant feature degradation, no workaround.	1 hour	Every 2 hours
Sev-3 Minor	Minor bug or non-critical path cosmetic issue.	24 hours	Next Sprint
